

The Fresno Republic

VOL. XXXIV—NO. 115.

FRESNO, CALIFORNIA, SATURDAY, NOVEMBER 7, 1908.

PRICE FIVE CENTS

REVIVAL OF BUSINESS MARKED

Commercial Advance Will Add Over Half Million Men to Pay Rolls By December 1st.

FIGURES ARE PREPARED FROM ENTIRE COUNTRY

Reports from Ohio Indicate Notable Return of Prosperous Conditions With the Resumption of General Work.

NEW YORK, Nov. 6.—The National Association of Manufacturers publishes in the current issue of American Industries, its official magazine, a statement of trade conditions sent in by its 3,000 members, representing every branch of industry. The series of these showing improvement in commercial conditions, appeared in the October 15 issue of the magazine. The series now published indicate a continuation of this improvement and for the most part an optimistic view of the business outlook.

Telegrams were also sent prior to the election to a number of the association's members asking them to state specifically how many workmen would be added to their present force by December 1 if nothing occurred to shake commercial confidence. A resume of the information contained in these replies is given by the magazine as follows:

The percentage of replies received indicate that an average of 135 men each would be added to the majority of manufacturing plants in the association by December 1. The reports show that at least one-half of the three thousand members of the National Association of Manufacturers expect to add to their force more than 200,000 workmen.

Taking this as a basis, says the article, it is safe to assume that the 13,000 manufacturers, which according to the census of 1900 employed an average each of 100 men or over, will add at least 60 per cent to their present force, making a total in round figures of 850,000 men. In other words, with the continuance of the business advance, the important manufacturing interests of the country will be enabled to increase their present force by more than a million workmen to meet the market demands for their products.

In securing the information, Democratic and Republican manufacturers alike were addressed. No attempt was made to limit the census to any particular industry or to any particular section of the country and the queries sent to manufacturers were based solely upon actual business conditions and business possibilities for the future.

TOLEDO, Ohio, Nov. 6.—The Toledo Shipbuilding Company announces that work on a new drydock to cost between \$250,000 and \$300,000 will be begun soon.

The Toledo Shipbuilding Company, which has a contract to build a new steel freighter in cost \$500,000, will push the work. The Toledo Machine and Tool Company will soon be operating a full complement of men. The Edward Ford Plate Glass Company, which has been running on half time, will start with a full force of workmen in a few days. The Toledo Malleable Company is making preparations for a resumption of business and the Toledo Furnace Company is operating one of its stacks, with the probability of the other in a short time. Fully 5,000 men will be affected by the resumption.

CHATTANOOGA, Tenn., Nov. 6.—The Queen and Crescent railroad has put more than 300 men at work within the last week. The shops in this city have resumed operations on full time with a complete force.

FAIRFIELD, Mass., Nov. 6.—Notices were posted today in the Stevens cotton mills announcing that beginning Monday next the carding, spinning and weaving departments are to be operated nights as well as days. The company employed 250 operatives.

BANGOR, Me., Nov. 6.—The Webster mill of the International Paper company at Orono, which has been running for some time at three-quarters of its capacity, resumed full operations today and the strikers began to apply individually for work.

NEW HARTFORD, Conn., Nov. 6.—It was stated here today that the cotton mills of Mt. Vernon and Woodbury Cotton Duck Syndicate, located here, would be started again as soon as new machinery was installed.

WASHINGTON, Nov. 6.—In the opinion of Franklin K. Lane, interstate commerce commissioner, the railroad, industrial and financial aspect of this country is improving rapidly. He said today:

"It is a fact largely believed, but nevertheless true, because it is reported by the railroads themselves, that the total operating revenue per mile of railroads for the year ending June 30, 1908, exceeds that of any other in the history of railroading in the United States, except the year of 1907. The average operating revenue per mile of line per month for the 326,000 miles of railroad reporting to the commission was \$884 for the fiscal year of 1908. This was less by about \$61 than for the year of 1907, but it was more than for any preceding year and was \$114 per mile per month more than in the year of the last presidential election. Conditions rapidly are becoming normal and prosperous."

NEW BEDFORD, Mass., Nov. 6.—New Bedford, cotton manufacturers report that business has been improving for a month or more and they hope to start all the machinery on full time before the close of the year.

Dowager Queen in Bad Health. LISBON, Nov. 6.—The newspapers say that the health of the Dowager Queen, Maria Pia, is failing; some anxiety. She is 81 years old.

CAPITAL REMOVAL IS BADLY BEATEN CONTEST FOR ILLINOIS GOVERNORSHIP

SAN FRANCISCO, Nov. 6.—Practically complete returns from thirty-six counties out of 58 in the state give the following totals on constitutional amendments which were voted on last Tuesday. No returns have been received from the following cities: Alpine, Butte, Del Norte, Humboldt, Inyo, Mariposa, Modoc, Mono, Nevada, Placer, Santa Cruz, Shasta, Sierra, Sonoma, Sutter, Trinity and Yuba. No concerted attempt was made to gather the vote on the amendments and in the counties which have not been reported it will not be possible to obtain the vote until the returns are officially canvassed next week. The figures at hand, as gathered by the Associated Press, give the following results:

Senate No. 1—For, 77,094; against, 75,090.

Senate No. 14—For, 75,028; against, 75,588.

Senate No. 16—For, 56,478; against, 32,030.

(On this amendment the votes of Los Angeles and Alameda counties are missing.)

Senate No. 26—For, 50,895; against, 67,881.

Senate No. 29—For, 60,055; against, 31,421. (Los Angeles missing.)

Senate No. 31—For, 93,106; against, 50,896.

Senate No. 32—For, 77,784; against, 64,771. (Los Angeles missing.)

Senate No. 33—For, 67,049; against, 52,491. (Los Angeles missing.)

Senate No. 34—For, 76,448; against, 52,095.

Assembly:

No. 3—For, 119,223; against, 32,126.

No. 7—For, 45,302; against, 34,934. (Los Angeles missing.)

No. 8—For, 62,770; against, 31,847. (Los Angeles and Alameda missing.)

No. 24—For, 45,461; against, 72,036. (Alameda missing.)

No. 28—For, 61,777; against, 20,623. (Alameda and Los Angeles missing.)

Removal of state capital—For, 74,525; against, 116,520.

Seawall act—For, 53,885; against, 32,879. (Alameda and Los Angeles missing.)

India. Bush art—For, 59,453; against, 46,346. (Los Angeles missing.)

Stevenson Will Contest.

CHICAGO, Nov. 6.—The re-election of Governor Charles S. Deneen will be contested, according to a signed statement issued tonight by Charles Boeschenstein, chairman of the Democratic central committee. The statement follows:

"I am convinced that with a correct count and an honest canvass, Alida E. Stevenson has a plurality of the vote east in the election last Tuesday for governor of Illinois. We will demand that the ballots be recounted."

Governor Deneen's plurality is estimated at 23,000 to 26,000. Ben Atwell, secretary, explained that errors had already been discovered in several precincts and it was calculated that if only three ballots were cast in each of the 4,040 voting precincts in Illinois were taken from Deneen and given over to Stevenson, the latter would be in a position to say that the official count is correct.

Tammay Supported Bryan.

RENO, Nev., Nov. 6.—Democratic central headquarters say Bryan carried Nevada by 150 or 200. No Norwegians concedes the entire state to the Democrats, excepting only one regent.

Two More Republican Congressmen.

CHICAGO, Nov. 6.—Today's return from congressional districts throughout the country resulted in a Republican gain of two as compared with the figures of last night. Albert Douglas, Republican, was elected in the eleventh Ohio district and Moses P. Kinclod, Republican, in the sixth Nebraska district. The contest of the fifth Nebraska district is extremely close and it will require the official count to determine the result.

According to the reports already received the next house will consist of 173 Democrats and 218 Republicans.

PERRIN TALKS OF PERJURY CHARGES

Declares Devlin, Black and Burns Conspired to Secure His Conviction for Fraud.

SAN FRANCISCO, Nov. 6.—During the hearing today of the appeal of Dr. Edward B. Perrin for a new trial on the charge of land frauds on which he was convicted some time ago, Dr. Fein sidestepped and began an attack on U. S. Attorney Black and Devlin. He declared that he wanted to prefer charges of subversion of perjury, including United States Special Agent W. J. Burns in his attack.

Dr. Perrin was quoted by the court, but afterward talked freely, saying that not only did he intend to make formal complaint against the men named, but that he would publish a history of his alleged wrongs. He said that he would prove that Black, Devlin and Burns had conspired to bring about his conviction by means of the testimony of C. P. Snell, a "timber cruiser" formerly employed by Perrin and Benson, whose evidence did much to bring about Perrin's conviction. Dr. Perrin showed an affidavit from Snell which declared that Snell knew of such a conspiracy.

STATE POLICE BILL IS APPROVED IN NEVADA

RENO, Nov. 6.—The state police bill, drawn as an emergency measure by a special session of the legislature after the United States troops had been sent to Goldfield to quell the labor troubles of last January, and which was the cause of the controversy between President Roosevelt and Governor Sparks, has been approved by the voters of the state. This bill was the chief issue in the campaign. When Mr. Bremerman returned from work this evening he found his wife, mother and infant son dead on the floor.

ROCKEFELLER'S DRIVER ARRESTED FOR SPEEDING

NEW YORK, Nov. 6.—John D. Rockefeller's chauffeur was arrested on West End avenue today, charged with reckless driving. As a bicycle policeman halted the car the occupant leaned out and said:

"I am John D. Rockefeller; I am going to see my chauffeur take me there and then arrest him, if you insist." The request was granted, and after Mr. Rockefeller reached his destination the chauffeur was taken into custody and fined \$5.

Dowager Queen in Bad Health.

LISBON, Nov. 6.—The newspapers say that the health of the Dowager Queen, Maria Pia, is failing; some anxiety. She is 81 years old.

RESIGNATION OF EMPEROR DEMANDED

Radical Editor Hardin of Berlin Leads in Outcry Against Kaiser Because of Interview

EVEN CONSERVATIVES REBUKE HIS MAJESTY

Advise Him to Display More Reserve in Utterances Likely to Embroil the Empire With the Foreign Powers.

MARYLAND VOTE SPLIT

BALTIMORE, Md., Nov. 6.—Calculations of the official returns from Maryland's election are not finished yet after midnight show that the electoral vote of Maryland will be split. Bryan getting six of the electors and Taft two. On the popular vote—the vote cast for the elector receiving the highest number—Taft carries the state by 561 votes. His elector polling the highest vote received 116,471, and the highest Bryan elector 115,910.

WILL GRAB OHIO OFFICES.

COLUMBUS, Ohio, Nov. 6.—Governor Harris decided to certify to the Ohio senate, when it is called to order in extra session next January the appointments of commissioner, fire marshal, labor commissioner, oil inspector, highway commissioner and a number of trustees of state institutions.

The senate is expected to confirm these appointments at once and it is said by the Republicans that when Governor-Elect Harmon sends in his appointments—the senate will be in a position to say that the offices are already filled.

Nevada Democratic.

RENO, Nev., Nov. 6.—Democratic central headquarters say Bryan carried Nevada by 150 or 200. No Norwegians concedes the entire state to the Democrats, excepting only one regent.

Two More Republican Congressmen.

CHICAGO, Nov. 6.—Today's return from congressional districts throughout the country resulted in a Republican gain of two as compared with the figures of last night. Albert Douglas, Republican, was elected in the eleventh Ohio district and Moses P. Kinclod, Republican, in the sixth Nebraska district. The contest of the fifth Nebraska district is extremely close and it will require the official count to determine the result.

According to the reports already received the next house will consist of 173 Democrats and 218 Republicans.

ASSIGNMENT OF A DESERT CLAI MIS A FRAUD

LOS ANGELES, Nov. 6.—To file upon desert land with the intention of immediately assigning it to other parties, is held to be fraud by Justice W. L. Wilborn of the United States district court.

"It is silly to accuse Tammany hall of knifing the national Democratic ticket, taking all the circumstances into consideration," said Mr. Murphy. "Many persons who are making the charge know better, but hope to make political capital at Tammany's expense."

There is plenty of proof that Tammany was absolutely loyal. The fact

that he intends to retain his

office is the best proof.

There is no proof that Tammany

had any influence with the

Democrats.

Mr. Maxey will first examine the books

of the Mercantile bank at the time of

the alleged over certification and misappropriation. The trial of Helmzay may begin in January.

THREE ASPHYXIATED BY KITCHEN GAS

WASHINGTON, Nov. 6.—Three persons were asphyxiated by gas fumes from a kitchen stove at 1309 1 street, northwest, this city, late today. The dead: Mrs. Hebe Curtis Bremerman, Mrs. Helen C. Bremerman, her mother-in-law, Curtis Bremerman, aged 13 months.

The house is occupied by the family of Clarence L. Bremerman, a steamer employee. When he heard the noise was scarcely the tremor of an eyelid and to those who were at there was no longer even the shadow of a doubt that the "little man" was indeed a man of iron nerve. Curtis, too, accepted the news which came to him—good news. In his case—with the same lack of emotion that characterized his former chief. But the strain had been too great for the women.

As the truth which Judge Hough's words meant flashed through her mind, Mrs. Morse, who, though all the trying days of the trial, and preserved an unruffled demeanor, collapsed in her seat, buried her face in her hands and began to sob convulsively. Still weeping, she was led away to an armchair, where a maid waited for her husband to hold her in his arms and sought to console her. Now was Mrs. Curtis any more prepared for the nervous strain than Mrs. Morse. Mrs. Curtis sat within the gas, gasping intensely at first. Though she began to speak, she had been ill and several times during the trial had been forced to leave her place in the court room. Today her face was drawn and white, telling of a night of mingled hope and fear, while her husband remained away from her behind the bars of a prison cell. When the judgment of court—the most favorable for her husband that could be given—was pronounced, she fainted and would have fallen had not kindly hands supported her.

More than an hour before the hour

set for the convening of the court

crowds began to throng the corridors

of the federal building and flock to the court room, hoping to witness the closing scenes in the sensational case.

Mrs. Morse and Mrs. Curtis were

seen in the kitchen of the home

of Clarence L. Bremerman, where

she had been staying since the

trial began.

Austrian Cabinet May Resign.

VIENNA, Nov. 6.—It is reported to-night that the Austrian cabinet is imminent in the autumn of the dismemberment among the German and Czech ministers arising from the recent conflicts in Prague and other Bohemian towns.

Conspired to Form Band of Night Riders

MEMPHIS, Tenn., Nov. 6.—W. J. McElroy, a farmer of Plum Point, who, the federal authorities assert, has endeavored to organize a band of night riders, was brought to Memphis tonight in default of \$500 bond was remanded to jail.

"I am John D. Rockefeller; I am

going to see my chauffeur take me there and then arrest him, if you insist."

The request was granted, and after

Mr. Rockefeller reached his destination the chauffeur was taken into custody and fined \$5.

CONFUSION AMONG RAISIN PACKERS

Unable to Check Gigantic Pool of Crops.

Stormy Session in San Francisco; Kearney Crop Has Been Signed Up.

Raisin packers from the San Joaquin valley held a stormy session in San Francisco a few days ago, the cause being the gigantic pool which is being formed by the raisin packers of Fresno and the模的 meeting of the packers toward the pool was learned for the first time and it was discovered that they are all up in the air over the formation of this pool. Many are far behind in their supply and the state of uncertainty which first permeated when the pool was inaugurated has been supplanted by a state bordering on complete confusion.

At this meeting an effort was made to estimate the unsold crop, but an agreement could not be secured by almost 10,000 tons. The rapid progress of the pool, the packers admitted, was thoroughly beyond their control and although efforts were made to stop the pool, nothing definite was decided.

Manager Friesel of the Kearney estate signed up the entire crop of the estate, approximating 700 tons, in the pool yesterday afternoon. He had just returned from San Francisco where he sought the approval of the board of regents of the University of California, and they gave him permission to turn the entire crop over into the pool. Chairman Patriarcher is highly elated over this late addition and feels certain now that no trouble will be experienced in securing the desired amount.

More telegrams were received in the city yesterday announcing a strengthening of the market in the East as a result of the election, thus indicating that if the growers stand firm they will have no difficulty whatever in securing the prices asked in the pool.

Another meeting of the raisin growers will be held in Elkhorn Hall at 11 o'clock this morning. At this time it is expected that something like an accurate estimate can be made of the tonnage in and out of the pool. A large force of men has been at work all week gathering statistics on the unsold crop and these people will report today.

The improvement in the Eastern market has caused the growers to take a firmer stand than ever and they are more than determined that they shall receive a return for their goods.

Prices of late have been ranging from 3 cents to 24 cents, according to quality and up to high as 4-1/2 cents has been offered for layers.

The Kearney crop and the 600 tons

at Elkhorn makes a tonnage of 1,200 to add in a block to the amount of last week, which has brought the amount signed almost up to the requirement to secure absolute control of the market.

BARTON ANNOUNCEMENTS

"Checkers" Comes Next Monday Night—

"Rocky Mountain Express"

Tuesday.

"Checkers," the rattling character comedy which will be seen at the Barton next Monday evening, has retained for many years an almost unchanged list of people. Most of the actors in the "Checkers" company have played the same roles since the play was first produced two years ago. H. H. Robert, who plays the title role, is in his fourth season with the company, but David Graham, the intrepid "Pug" Miller, has been with the organization since the first performance. So have Lydia Dickey, George Merritt and Jim Wilkes. Lydia Dickey has her old part of Cynthia, and Pauline Eberhard is Aunt Deb again. Helen Ormsbee will have the leading woman's part this season of "Pert," the sweetheart of "Checkers." The seat sale for "Checkers" is now open.

Rocky Mountain Express.

This morning the seat sale will open for "The Rocky Mountain Express" which comes to the Barton next Tuesday evening. The Kibbe & Giesen Amusement company has given its latest offering a sumptuous setting and an excellent supporting company. The prevailing prices will be 25 cents for the lower floor, 30 and 35 cents for the balcony, 25 cents for the box and 20 cents for the gallery.

Uncle Josh Perkins.

Following the seat sale will open "The Rocky Mountain Express" for Wednesday evening. The Barton will offer a great fun show.

Wednesday evening the seat sale for "Checkers" will open next Monday morning.

McSWAIN MADE HERDER OF HOGS

To Paste Them as Receiver
When Others Cannot Do So.

Attorney Ingersoll Sued for Divorce for Cruelty After Marriage of Last May.

Lawyer Britckley took fifty-four hogs into court yesterday upon paper and before inking time Constable McSwain found himself obligated under a bond of \$600 as receiver to herd those hogs two miles south of town and see that they are fed and pastured at a cost not too great to the litigants until he can sell them to advantage for all concerned.

His appointment as custodian and reader of the hogs came to him in the case of Ben Dask and J. M. Pitts, who sued E. Beeson and E. H. Chapin for their services to take charge of fifty-four hogs "of various ages and descriptions" delivered on the 13th of September by Beeson for feed and pasture at \$50 per month and for extra feed for additional feed or pasture. This extra claim for feed has amounted to \$50, but Beeson has not paid anything save \$17, leaving \$33 due, for which the plaintiffs claim a lien on the porkers.

Chapin also claims a lien under a charged mortgage, but if he has any it has been acquired since the delivery to the plaintiffs and subsequent to the pasturage agreement wherefore it is subordinate. Now have come the plaintiff to say that Beeson and Chapin have or are about to sell the hogs in lots to various buyers, and if so it will be impossible to subject them to the lien, unless receiver is named to take possession of the hogs and hold them.

This receiver is said to be necessary moreover because the defendants refuse to pay what is due and take the hogs and because it is impossible for the plaintiffs to pasture or keep them longer as the pasture is insufficient and additional pasture cannot be had. Constable W. S. McSwain has as receiver been called upon to supply the insufficiencies, realize the impossibility, sell the hogs and discharge the lien and in the meanwhile see to the feeding of the hogs.

Suing and Sued.

Complaint was filed yesterday afternoon by Attorney Christopher and Harbour in behalf of Eliza V. A. Ingersoll, the young attorney for the Ingersolls, who were married on the 26th of last May, at which time, in securing the license, he gave his age at 30 and hers at 23. She is the daughter of H. V. Parker, a well known farmer and prominent in G. A. R. circles. The married life of the Ingersolls is stated to have been not a happy one, and the complaint charges acts of cruelty such as using intemperate and profane language. There is no prayer for attorney or for adjudication of property rights, this having been adjusted before the commencement of the action. It was the report that the young bride brought as her marriage dower a \$250 gift from her uncle and that this money was invested in house and lots afterwards homesteaded. The filing of the Ingersoll complaint was a surprise even to those who knew that the relations since the marriage in May were followed by an estrangement and separation. It so happened that the paper filed next before the Ingersoll complaint was a sealed document by Ingersoll, as attorney, seeking divorce for Eliza Maxson from Thomas V. Maxson.

Letters Not Revoked.

After an all day trial on Thursday, followed by arguments yesterday, Judge Austin granted judgment for the Ingersolls in their suit for a decree of divorce. In the matter to revoke letters held by him in administration of the estate of Stella Cagarian, the contestants was A. Chapman, the curiously husband of the intestate and brother-in-law of the administrator. He in turn sought the letters, claiming misrepresentations were made to induce him to assign his right to letters.

Settled for \$1300.

Attorney E. A. Williams filed his report yesterday as local guardian of the five children at Lake Park, Minnesota for whom contest was made against the disposition by will of the estate of A. Youngberg, veterinarian, of Selma who left all to his young housekeeper who has since married. The report is of interest, as showing that the contest was compromised for \$1300, as shown by the receipt of the guardian in Minnesota.

Daughter Is Only Heir.

A balance of \$123.10 is reported for distribution in the estate of Adam Bolinger, whose total appraised value was \$1250. This money was derived from the sale of 90 acres of land located near Pollock, in Madera county, to the U. S. government. The only heir is Katie P. Tatman, a daughter and wife of H. E. Tatman, administrator of the estate.

**Appeal Made in Behalf
OF LITTLE COLORED GIRL**

Supervisors Recommended to Best
Wishes from the Good
Lord.

Nine years and one month old Little Brown, a chubby-faced little colored girl, was the subject of solicitous regard at the hands of the supervisors yesterday afternoon. Little Lottie is facing the future with a heavy handicap. Her father died here two years ago and her mother, Anna Brown, then known as Lindley, was murdered by a jealous suitor on the 20th of November, 1904, on returning home at night from church. The child has since been in the care and keep of her granny, Jane Avery of 1752 C street, but she, because of age and illness, has been unable to properly support her and therefore asked the board to assist her to dress the child and maintain her. The board granted the gray-haired mammy \$7.50 a month temporarily, and as she left the council chamber she showed lavish thanks and the "best wishes from the good Lord" on the members.

"It isn't often, gentlemen, that we have the favor of the Lord directed towards us," was the chairman's parting reflection.

Illinois Canal Bonds Carry.
CHICAGO, Nov. 6.—The proposition submitted to the people at Tuesday's election to bond the state for \$26,000,000 to construct a channel from Lockport, Ill., to Utica, Ill., on Illinois river, was carried by a large majority. The United States government has promised to complete the channel beyond the Illinois state line. Thus a ship waterway from Chicago to the Mississippi is assured.

Twenty-five Years for Arson.
SAN FRANCISCO, Nov. 6.—William Spencer, who confessed to setting fire to the home of Charles Sheridan on San Bruno avenue, while the inmates were asleep, was today sentenced by Superior Judge Carroll Cook to 25 years in the state prison at Folsom.

PASCH BROS. DEPARTMENT STORE

A GREAT ARRAY OF BARGAINS

SPECIAL SALES FOR TODAY

A GOOD START

That was a splendidly virile speech of President-Elect Taft before the Commercial club of Cincinnati, and it will be worth literally billions in money to the country, as well as a distinct confirmation of moral confidence and national self-respect. It means, without equivocation, that legitimate business has nothing to fear from President Taft, and crooked business has nothing to hope from him. The proposition that business must be subject to law will be adhered to with all the Roosevelt force, and with more than Rooseveltian legal efficiency. But there will be no reckless leniency, no straining for a new record, and no interference with the legitimate expansion of legitimate business.

The effect of the election on business is already visible. The speculative barometer went up instantly. Industrial revival followed almost as quickly. Strikes are being settled, mills are resuming full time and double time, mercantile orders are increasing, railroad business is reaching normal and will soon be glutted, and all the signs of an active revival of prosperity are in evidence. It may be hard to see how a president can affect prosperity, even before he takes office, but it is an unquestionable fact.

And everybody is satisfied. From nowhere is there a word of complaint; scarcely even of disappointment. Even Bryan personally was prepared for his defeat, and does not seem to be cast down by it. None of his supporters grieve, and the nation is content. If Bryan had been elected, all the Republicans and half the Democrats would have been nervous and apprehensive of the outcome. With Taft elected everybody is quietly rejoiced that things are to go in their even tenor, with rigid protection against those abuses which, if unchecked, would have boded revolution, but with no disturbance of the normal currents of legitimate enterprise.

MORAL VICTORIES

The result of the elections, in most cases, indicates a distinct revival of the moral sense of the American people. The election of Hughes in New York, of Hadley, in Missouri, and of Dunn, in San Francisco, to say nothing of cases not quite so plain, all show that on a square issue of vindicating right policies and good government, the people will rise to the emergency. There are exceptions, of course—we had them in Fresno—but the general fact is encouraging.

The election of Hughes in New York is especially significant. Governor Hughes is a very poor politician, and belongs distinctly to the popularly unavailable class. He was a college professor and an office lawyer, before he became famous for the marvelous acuteness of his investigation of the insurance frauds. And in those investigations, he showed no more striking personal qualities than a well-poised temper and an astonishingly clear and penetrating intellect. These are splendidly high qualities, but not popular ones. In the reorganization of the life insurance business, after the revelations, Hughes took particular pains to see that the remaining was constructive. Smashing is more popular. In all his dealing with politics, Hughes has absolutely neglected all the "blocks of votes." The politician knows no unblocked votes, and is still wondering where Hughes got his strength. As governor, Hughes defied all the traditions, and appealed to the people direct, but he appealed to them in the mass, by argument, and not separately, by jollying Tom, Dick and Harry and his best girl. To the people as a whole, Hughes is very close, but with them individually he is not a good mixer. He is cold, aloof, and finds no fun in swapping horse-play with fools. Finally, just as he was about to be a candidate for re-election, Governor Hughes deliberately made all the enemies possible, by forcing through the anti-trust bill, and defying all the associated toughness of the most compacted mass of toughs in the world. And he won. It restores one's oft-shaken confidence in human nature to see such things.

DIRECT PRIMARY

The people of California, by an overwhelming majority, have voted for a direct primary amendment to the Constitution. Now it is incumbent on the legislature, the majority of whose members secured their nominations by methods which the direct primary will render impossible, to enact legislation confirmatory of the popular vote. There is hope that they will do so, for while most of them do not believe in the direct primary, and the influences behind them distinctly do not favor it, there is a tremendous coercive power in a direct expression of the will of the people, which even case-hardened machinists can not permanently resist.

But it will be interesting to watch the attempts to evade the inevitable. Now that we have the constitutional warrant for it, there is no excuse for trying anything less direct than the direct-primary sort of a direct primary. Whether the new system is a success or an experiment, the way to try it is to try it uncompromisingly. But there will be a reluctance to give up the convention system entirely, and various offers to compromise it. Also, there may be schemes to subvert or discredit the first direct primary.

NO DANGER OF WAR IN THE NEAR EAST

LONDON, Nov. 6.—The correspondent of the Times at Belgrade in a dispatch says:

"A complete change in the situation here in the last few days seems to justify the anticipation that all immediate danger of war in the Balkans has been removed. This change is due to the firm attitude of the powers toward the imperialistic schemes of territorial compensation."

"The crown prince of Serbia returns from Russia as the harbinger of peace and quietness in the future will obtain from heligious uprisings. The Russian government having shown a determined effort on the part of Serbia and Montenegro to decide what had been accomplished or to obtain territorial compensation by force of arms."

CASA BLANCA CASE IS STILL UNSETTLED

PARIS, Nov. 7.—White confident that a settlement of the Casa Blanca incident will be reached still prevails a dispatch from Berlin announcing that Germany's reply to the protest made by France through Ambassador Cambon is likely to be held over until after an examination of the Casa Blanca peace commissioner's report, has caused a slightly unfavorable reaction.

The Figaro says it cannot see what good the examination of the commissioner's report will do.

"Doubtless," it adds, "the imperial government wants to gain time, to which no objection can be raised, if the desire is inspired by good motives and if the intentions are less pure the delay will not be so important as the said government may think or hope."

NIGHT RIDERS BROUGHT TO COURT BY MILITIA

UNION CITY, Tenn., Nov. 6.—Eleven prisoners held in connection with night depredations in the Rock Lake area were brought into Judge Jones' court here today under military guard. They sued out writs of habeas corpus charging that Guyver Patterson had violated his constitutional authority in ordering out the military to arrest them. Attorney Pierce, for the defendants stopped proceedings by a motion which was granted, that he be allowed to consult privately with his clients, a privilege which had been denied him at the military camp. Court adjourned until tomorrow.

POLICE SHAKE-UP IN GREATER NEW YORK

NEW YORK, Nov. 6.—A shakeup such as the police here have not experienced in years took place today. Four inspectors were reduced in rank to captains, three captains were reduced to lieutenants, four inspectors were transferred, five captains were shifted to outlying precincts, two lieutenants were promoted to captains and ten sergeants were made lieutenants.

While Police Commissioner Ringham would not comment on the drastic step he had taken, it was generally understood at police headquarters that the rambling situation had caused him to make the changes.

LATE NEVADA RETURNS

RENO, Nov. 6.—Generally state headquarters give out the following:

Complete return at midnight show that Nevada goes for Bryan by little more than 500.

Senator Francis G. Newlands' majority over Flanigan for United States senatorship will be well above 200.

George Bartlett wins for Congress by 2,000 plurality, running considerably above the ticket.

EDITORIAL OPINIONS OF STATE PRESS

MORGAN HELPS BUY GLASTONBURY ABBEY

LONDON, Nov. 6.—J. Pierpont Morgan has donated \$1,250 to the fund that is being raised to purchase Glastonbury abbey.

Glastonbury abbey, which is twenty-five miles south of Bath, was founded by King Cadwallader in the eighth century and was replaced two centuries later by another erected by St. Dunstan. In 1843 it was destroyed by fire and was rebuilt by Queen Victoria and dedicated in 1861, long after her death. In the reign of Henry VIII, the abbot, who had the abbey dismantled and the abbot hanged.

CHINESE AS MEXICANS GET INTO THIS COUNTRY

CITY OF MEXICO, Nov. 6.—A new trick by which the Chinese are sold to have been evading the immigration laws of the United States has just come to the notice of the Mexican government.

It is learned that large numbers have become naturalized citizens of this country and as such have been shipped across the border as Mexicans. It is said this has been practiced extensively.

Measures will be taken by the government to eliminate this practice.

TURKEY WILL GIVE LAND TO DISPOSSESSED ARMENIANS

LONDON, Nov. 6.—The Times correspondent at Constantinople announces that the Turkish government will make an attempt to deal with the Armenian question by conceding grants of government land to those Armenians possessing title deeds to lands from which they were dispossessed by Kurds in time of massacre.

One Killed in Collision.

SHERBROOKE, Quebec, Nov. 6.—A head-on collision between a passenger and a freight train on the Grand Trunk railway occurred near Danby today. Oliver Trenton of Wheatlands, Canada, was killed.

C. T. Tobin, member of parliament from Tromptonville, and his daughter were seriously injured and several others were slightly injured.

NO HARVARD PRESIDENCY FOR PRESIDENT ROOSEVELT

MINNEAPOLIS, Nov. 6.—Rome G. Brown, president of the Harvard Club of America, 1907-1908, says President Roosevelt cannot succeed. Dr. Eliot of Harvard for two reasons:

"First, he does not want the presidency; second, couldn't get it. Not conservative enough for Harvard presidency, could not get one vote Harvard board of overseers."

TRYING OUT A BATTLESHIP.

LONDON, Nov. 6.—The British battleship Invincible, the last addition to the British navy, in a trial today under seven-tenths of her power, attained a speed of twenty-five knots an hour. It is expected that the vessel, when working under full power, will reach a speed of thirty knots, a world's record.

by making it so complicated as to be unworkable. Or, there may be, after all these schemes are discussed, a simple surrender, under orders to take the program.

But, whether against obstruction or the people have a right to expect the next legislature to pass a primary law that shall be as direct and simple as possible. Theoretically, the direct primary law would let anybody run for any office on any ticket, by simply registering his name, and then let any body vote any ticket he pleased, and give the nomination to whoever gets the most votes. Practically this degree of simplicity would result in needless complication. There would be too many trivial candidates, and there would always be a scrumblie to get Democratic votes in Republican primaries and vice versa. So it may be necessary for each candidate to present a petition sufficient to show that his candidacy is taken seriously by others besides himself, and the present provision will have to be continued, requiring voters to determine some time in advance in which box they will vote, instead of waiting until they get to the polls. But, beyond these two provisions, the less interference with the limits within which it is practically workable, let us try how it will seem, to let anybody be a candidate for anything, and to get the nomination if he can get the votes.

DESTRUCTIVE ISSUES SURE

"But the Democratic party can never get control of the government," says the Chronicle, "until it offers to the country some great constructive policy." We hope not. But, as surely as the world moves, the Democratic party or some other is going to try to get control of the country on a great destructive policy. There is a vast lot of destructive sentiment abroad in the land, which does not believe in the present order of things and wants to undo it. People of such beliefs may be crazy, but they are distressingly numerous, and somebody is going to organize them. The commonest question asked of political speakers and writers is this: "What is the government, under your policy, going to do to get a job for the jobless, or to raise the wages of the underpaid?" And the only honest conservative answer is: "Nothing. Something ought to be done for him, but it is not the business of the national government to do it, except so far as general prosperity under our policies, can do it indirectly." But the men who ask that question think it ought to be done directly; and that the government is the power that should do it. They are going to make the fight, on the issue, and must be met on it. And when that issue comes, politics will not be the game of ping-pong, for buttons, of which the Chronicle dreams.

CHANCELLOR ANDREWS RESIGNS IN NEBRASKA

LINCOLN, Neb., Nov. 6.—At a meeting of the board of regents tonight Chairman E. Benjamin Andrews of the University of Nebraska tendered his resignation to take effect January 1st. The board of regents voted to accept the resignation. No suggestion as to his probable successor was offered.

The resignation of Chancellor Andrews was not a great surprise. Several months ago, following indifferent health, Dr. Andrews tentatively resigned but the regents at that time urged him to remain. Since then his health has so improved that his status as head of the school was supposed to be indefinite, so far as known there has been no friction between the chancellor and the regents.

MARE ISLAND IS TO BE IMPROVED

Board of Engineers Has Prepared an Elaborate Report for Submission to Congress.

WASHINGTON, Nov. 6.—Important recommendations for improving Mare Island strait and the approaches thereto are contained in the report of the board of engineer officers of the army and navy and an estimate of money of \$1,797,000 for the work, this amount to include a self-contained and self-propelling dredge which will require about \$125,000 a year to maintain.

The recommendation provides that the strait be dredged to a 300 foot depth with a width of 600 feet over the bar and up to the turn, a width of 400 feet from the turn to the receiving ship wharf and 1000 from that point to the north end of the quay wharf; that the dikes within the strait and at the lower end of Mare Island be extended and that the channel in San Pablo bay be dredged to a width of 500 feet and a depth of 30 feet; all depths being the mean low water.

Instructions in the board's report refer only to the improvement of the approaches to Mare Island strait from the sea and of the strait itself. They did not include any investigation of the suitability of Mare Island and adjacent waters for navy purposes, nor plans for developments of dock and anchorage facilities. The extension of the present dyke system and the dredging of the channel are recommended, with the explanation that the extended dykes will assist in maintaining the desired depths, together with such additional dredging as may be necessary. The plan provides for the dredging of the basin and proposed channel in the strait to thirty feet at mean low water, and the extension of the dykes within the strait a total distance of 2400 feet, the removal of the Mision rock to a depth of twenty feet is recommended by the board; also the addition of a dyke at the foot of Mare Island, extending down stream one and a half miles, to prevent silt being carried into the strait from San Pablo bay, with a proviso that it be further extended should conditions render it advisable. The estimated cost of this improvement is \$1,000,000.

Secretary Metcalf announced recently that he expected to incorporate the board's estimate in his report to congress.

WESTERN PACIFIC TO BEGIN OPERATIONS

SALT LAKE CITY, Nov. 6.—Passenger and freight trains on the Utah division of the Western Pacific railroad, the name of the Gould system extension to the Pacific coast, will be opened within two weeks, according to an announcement made at the offices of that railroad today. Regular traffic will probably be inaugurated from Salt Lake as far west as Shafter, Nev., where the Western Pacific crosses the Southern Pacific. More than 100 miles of new road is now in operation from Oakland, Cal., eastward. The gap between Shafter, Nev., and the eastern end of the California line is being closed as rapidly as possible. Officers of the road say 80 per cent of the grading and over 65 per cent of the tunneling of the gap is now complete.

LONG HEALTH REPORT MADE TO THE GOVERNOR

Dr. N. K. Foster Goes at Length Into Vital Statistics of the State.

SACRAMENTO, Nov. 6.—The largest and most complete life-survey report ever gotten off by the state board of health was rendered to the governor yesterday by Dr. N. K. Foster, secretary of the present state health board, today. The report is a very lengthy one, and replete with information.

Dr. Foster recommends that an assistant secretary and a consulting engineer be allowed the board, provision to be made by the legislature for those officials. According to the report the health of the state is very good.

A greater portion of the report is given over to vital statistics, compiled by Statistician George D. Leslie. Leslie shows that the birth registration in California numbered 24,647 for 1907, against 26,974 for 1906, an increase of 3700.

The percentage of increase was 18.8 for the country north of the Tehachapi compared with 15.6 for those to the south.

The marriages registered in California totaled 23,065 for 1907 against 21,317 for 1906, a gain of 1,888 or 7.9 per cent.

The percentage of increase was 9.7 for Northern California and 7.9 for Central California or 7.1 for both together against 9.2 for Southern California.

The deaths in California, exclusive of still births, numbered 31,095 for 1907 against 29,303 in 1906, an increase of 1702 or 6.1 per cent. There were decreases for 1907, as compared with 1906 in San Francisco and in the coast counties of Central California, on account of the excessive mortality from earthquake and fire in April, 1906.

The per cent of increase in deaths was 11.8 for Northern California and only 2.1 for Central California or 5.4 for both together, against 12.4 for Southern California.

FREIGHT ROBBERIES LOCATED IN NEW YORK

NEW YORK, Nov. 6.—Robberies within the last three months involving more than \$100,000 worth of freight leaving the terminal of the Lackawanna railway in Brooklyn, were disclosed today according to the police by the arrest of four employees of the railroad. Two were clerks, George Tracy and James T. Martin, and two drivers, G. Lomax and William Stewart.

The detectives found, they say, that inside employees first located the most desirable goods and then dishonest drivers extracted the goods while in transit from the terminal to the consignees.

Big Saddlery Plant Burned.
NASHVILLE, Tenn., Nov. 6.—Fire today destroyed the plant of the Nashville Saddlery Company. Loss \$130,000.

Guardian of Thaw Estate Dead.
PITTSBURG, Nov. 6.—Frank Semple, who was in charge of the William Thaw estate and interested in many other institutions, died today of pneumonia, aged 67 years.

WHAT AN OPPORTUNITY FOR THE ANVIL CHORUS

SYRACUSE, N. Y., Nov. 6.—The Syracuse Herald asked prominent editors of the country for their opinion regarding the selection of President Roosevelt as the successor of President Eliot of Harvard.

Clark Howell, Atlanta Constitution, wired that Roosevelt would make an ideal president.

The editor of the News and Courier, Charleston, S. C., said that the Southern people would advise against such a move.

Josephine Daniels, News and Observer, Raleigh, N. C., wired:

"By all means Roosevelt should be elected president. Rockefeller curmudgeon and Poor professor of political economy if Harvard is to teach absolutism, greed and usurpation."

The Chicago Tribune suggests that Roosevelt stay in politics.

The Salt Lake Tribune thought the President would strengthen Harvard with the Mormons.

The Leader, Guthrie, Okla., said public sentiment suggested Bryan.

WASHINGTON RAILWAY WORK TO BE HASTENED

PORLTAND, Nov. 6, James J. Hill, chairman of the executive committee of the Great Northern Railway company, accompanied by Louis W. Hill, Horatio Elliott and Francis E. Clark, all railroad presidents, arrived in Portland today to attend the meeting in connection with the formal opening of the Spokane, Portland and Seattle railroad, shown as the North Bank road. The event will be celebrated tonight by a banquet in the rooms of the Commercial club under the auspices of the Chamber of Commerce.

Interviewed on his plans for railroad development of the Northwest, Hill expressed his intention of hurrying the North Bank into Spokane at the earliest possible date, and that trains would be running into that city over the new road by the middle of next February.

VIOLENT EARTHQUAKE IN EASTERN GERMANY

PLATZ, Germany, Nov. 6.—The most violent earthquake ever experienced here terrified the inhabitants of the city at 5:40 o'clock this morning. Houses were shaken and the people fled panic stricken into the streets. The shock, which lasted for several minutes, was accompanied by sharp explosions and thunderous rumbling in the earth. Sixty or seventy earthquake shocks have been felt here daily for the past week. They are now becoming less frequent, but more violent. The temperature of Medina Springs, in the vicinity, has increased fifteen degrees.

Narrow Escape from Fire.

OAKLAND, Nov. 6.—A fire which broke out in the rear of the brewery of D. F. Bernal, in Livermore, Calif., this morning, destroyed two structures, partially destroying another and resulted in a loss of \$10,000. But for the prompt act of Senator Durand, a moving picture operator, an entire family of the Bernal, might have been incinerated in the roaring flames. Durand was awakened by the fire and aroused the Bernal family, who left the burning building before escape was cut off.

Paper Strike Settled.

SARATOGA, N. Y., Nov. 6.—The strike in the mill of the International Paper company at Palmer Falls was settled today. The employees voted to accept the terms of the company.

HIGHWAYMEN SHOOT VICTIM IN THE JAW

LOS ANGELES, Nov. 6.—Two masked highwaymen held up and robbed three employees of the Los Angeles Stone company in Ruth canyon near Hollywood about midnight last night. Thomas Mullen, one of the men, resisted the thugs and was shot through the jaw. His jawbone was shattered by the bullet. He is at the receiving hospital in a critical condition.

Mullen, in company with Samuel Meesas and John Shaw, were returning to the stone company's camp when the masked men suddenly stepped out from behind a clump of bushes and ordered them to throw up their hands.

Meese and Shaw quickly obeyed the order of the thugs, but Mullen evidently did not comprehend the situation and continued walking. Without further warning one of the highwaymen opened fire and Mullen fell seriously wounded.

Apparently thrown into a rage at the supposed resistance of one of their victims the two thugs quickly searched their victims, enabled them over the heads with the barrels of their revolvers and disappeared. They also searched the unconscious man on the ground. They obtained little.

SEVEN SEAMEN LEAVE SHIPWRECKED VESSEL

NEW YORK, Nov. 6.—Seven shipwrecked seamen who were today brought into this port by the Austrian steamer Maria, told a惊人的 tale of a six days' battle with gales that battered the men to their wits, the R. D. Spear, until they were forced to abandon her on November 3rd.

The schooner sailed from Philadelphia on October 2nd for Canada, Maine, with coal. On the night of October 26th she encountered a stiff northeast gale which carried away part of the rigging and sails. The schooner was forced to run before the gale.

Later she began leaking.

Just as the crew was about to give up in despair, the steamer Maria was sighted. After much difficulty, owing to the huge seas breaking over the water-logged vessel, the crew managed to launch the life boat and leave the doomed schooner for the Maria.

CHARCOAL REMOVES STOMACH POISONS

Pure Charcoal Will Absorb One Hundred Times Its Volume In

Poisonous Gases.

Charcoal was made famous by the old monks of Spain, who cured all manner of stomach, liver, blood and bowel trouble by this simple remedy.

The little nervous Frenchman held forth its virtues before a famous convention of European physicians and surgeons. Stecherian was his name. He was odd, quaint and very determined.

His brothers in medicine laughed at his claims. Thereupon he swallowed two grains of strichnine, enough to kill three men, and ate some charcoal. The doctors thought him mad, but he did not even have to go to bed. The charcoal killed the effects of the strichnine and Stecherian was famous. Ever since that day physicians have used it. Rain impure water through charcoal and you have a pure delicious drink.

Bad breath, gastritis, bowel gases, torpid liver, impure urine, etc., give way before the action of charcoal.

It is really a wonderful adjunct to nature and is a most inexhaustible storehouse of health to the man or woman who suffers from gases or impurities of any kind.

Stuart's Imperial Lozenges are made of pure willow charcoal, sweetened to a palatable state with honey.

Two or three of them cure an ordinary case of bad breath. They should be used after every meal, especially if one's breath is prone to be impure. Those little lozenges have nothing to do with medicinle. They are just sweet, fresh willow, burned to a nicely for charcoal-making and fragrant honey, the product of the bee. Thus every ingredient comes to man from the hip of nature.

The only secret lies in the Stuart process of compressing these simple substances into a hard tablet or lozenge, so that age, evaporation or decay may not assuage their curative qualities.

You may take as many of them as you wish and the more you take the quicker will you remove the effects of bad breath and impurities arising from a decayed or decaying mouth. They assist digestion, purify the blood and help the intestines and bowels throw off all waste matter.

Go to your druggist at once and buy a package of Stuart's Charcoal Lozenges, price 25 cents. You will soon be told by your friends that your breath is not so bad as it was. Send us your name and address and we will send you a trial package by mail free.

Address: F. A. Stuart Co., 200 Stuart Bldg., Marshall, Mich.

WE REGULATE WATCHES
to a hair. Stop in and let us regulate. No charge, however, for cleaning and repairing. Only very moderately, however, though we do first class work. If you have a watch that won't bring it to us. We'll put it in condition so that you can regulate it yourself. We are just as skillful at repairing jewelry, too.

It isn't because Imperiales Cigarettes cost only 10¢ for ten that they have built up their enormous sale.

It's because they afford a distinctive flavor, a smoking satisfaction, possessed by themselves alone.

IMPERIALES CIGARETTES

with their thin mais paper—crimped, not pasted—with their conscientiously selected and wisely blended tobacco, and individual mouthpieces, are smoked by thousands of men who could well afford to pay fancy prices for their cigarettes.

The men of the West smoked over 125,000,000 Imperiales Cigarettes in 1907.

Smoke them all day long if you want to—no after effects.

BEWARE PNEUMONIA

According to mortality statistics, pneumonia is one of the most frequent and fatal diseases to which humanity is subject. Its action is so rapid that its victim is often in a precarious condition before realizing that anything more serious is the matter than a severe cold.

This is one of the dangers that may follow neglect of a cough or cold, and is therefore the best of reasons why one should check a cold at the start. A simple, inexpensive and effective remedy used will usually break a cold overnight, is the mixture of one-half ounce of Virgin Oil of Pine compound tincture, with two ounces of Glycerine and a half pint of good Whisky. Take a teaspoonful every four hours. It is claimed this mixture will cure any cough that is curable, and provides a sufficient quantity to last the average family an entire year. Get the ingredients separately and mix them yourself.

In preparing this formula it is essential to use only the next quality of Glycerine and Whisky with the genuine Virgin Oil of Pine compound pure. The latter preparation is a combination of the active principles of the Pine and Santalwood trees, carefully compounded to retain the healing health-giving properties for which these trees are justly famous. In order to insure its purity and freshness it is securely sealed in a round wooden case. The genuine Virgin Oil of Pine compound pure is prepared only in the laboratories of the Leach Chemical Co., Cincinnati, O.

by associations.

Report of the board.

Report of the Board.

Address, Rev. C. W. Brinsford of
Oakland.

A SURGICAL
OPERATION.

If there is any one thing that a
woman dreads more than another
it is a surgical operation.

We can safely without fear of a
contradiction say that there are hundreds,
if not thousands, of operations
performed every day in our hospitals
which are entirely unnecessary
and could have been avoided by
anyone who has been reading.

Mr. Lynde E. Pinkham, of Kingman,
Kan., says:

"For 25 years I suffered from the
most severe and distressing troubles
which was my only hope of escape, Dr. Lydia E. Pinkham's
Vegetable Compound. It has saved
my life and made me a well woman."

Mrs. Arthur H. House, of Church
Read, Meriden, Conn., writes:

"I feel it is my duty to let people
know what Lydia E. Pinkham's Vege-
table Compound has done for me;
suffered from female troubles, and
in March my physician declared that an
operation was necessary. My husband
objected, and urged me to try Lydia
E. Pinkham's Vegetable Compound,
and to-day I am well and strong."

Lydia E. Pinkham's
VEGETABLE COMPOUND

For further information read
the following statement:

Miss Lydia E. Pinkham, of Kingman,
Kan., says:

"For 25 years I suffered from the
most severe and distressing troubles
which was my only hope of escape, Dr. Lydia E. Pinkham's
Vegetable Compound. It has saved
my life and made me a well woman."

Mrs. Arthur H. House, of Church
Read, Meriden, Conn., writes:

"I feel it is my duty to let people
know what Lydia E. Pinkham's Vege-
table Compound has done for me;
suffered from female troubles, and
in March my physician declared that an
operation was necessary. My husband
objected, and urged me to try Lydia
E. Pinkham's Vegetable Compound,
and to-day I am well and strong."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's
Vegetable Compound, made
from roots and herbs, has been the
standard remedy for female ills,
and has positively cured thousands
of women who have been troubled with
displacements, inflammation, ulceration,
fibroid tumors, irregularities,
periodic pains, and backache.

Mrs. Pinkham invites all sick
women to write her for advice.
She has guided thousands to
health. Address, Lynn, Mass.

"A Word to the Wise"—Its Overcoat Buying Time Now.

Let every man who appreciates good
values and smart styles visit our store
and choose his overcoat from our large
assortment of elegant new fall styles.
Any man that tries one of our overcoats
on will be pleased with its graceful lines,
its perfect fit, the stylish materials, and
last but not least, the price.

The new overcoats this season are
made of fabrics entirely different from
those of former years. Rich striped ef-
fects in all the soft colors of dark, medium
and light browns, olives, greens, drabs
and grays are the styles. Backs are
shapely and graceful; high square
shoulders; many with velvet collars of
contrasting color.

Our overcoats are the very smartest
styles out and when you buy here, you
have the pleasure of wearing "some-
thing different" from what is regularly
seen about town and one that is strictly

COOPER S. CO.

SOCIETY

An unusually brilliant opening to the dancing season was the first assembly of the Eschscholtzia club last night in Armory hall. The club has a larger membership than usual this year and the management deemed it advisable to change the place of meeting to larger quarters. The change proved a success, although the new place of meeting has a number of drawbacks, emphasizing more缺点 than ever the due need of Fresno for a suitable social hall in which affairs of this sort may be given with some degree of comfort and satisfaction.

Armory hall taxes the skill of the decorator to the utmost to fit it of its distinctive, barn like appearance, Miss Parsons succeeded last night in imparting to the decorative scheme which she had arranged most ingeniously a canopy effect in wavy garlands that softened the bareness of the hall and made a most attractive setting for the pretty gowns of the ladies. The orchestra was stationed in the center of the hall, the platform being concealed behind a lattice work of paper garlands supported by pillars of magnolia leaves. The entire effect of greenery was distinctly harmonious. In the southwest corner of the hall, the platform usually used for the orchestra served as a most convenient spot in which punch was served. The platform was covered with white canvas and a mass of delicate greenery formed a background for the punch table.

The Reitz-Tilton orchestra furnished music for the dancing and the introduction of several jolly horn dances tested the skill of the dancers and proved a very interesting innovation on the program. James Gearhart, the efficient club president, and Willis Pike attended to the duties of floor manager with consummate skill and everyone had the best possible time. The reception committee this year, as last session included Lee Gray, Willis Pike, W. J. Cleary, Lewis H. Smith and W. A. Sutherland. The presence of a number of attractive visiting girls added to the interest of the occasion and the enthusiasm manifested in the club this year augurs well for its success.

Several charming little dinner parties preceded the Eschscholtzia dance last night. At one Mr. and Mrs. Lee Gray were hosts, covers being laid for ten at a pretty round table which had for its decorations a cluster of lovely chrysanthemums. The guests at this informal little gathering were Mr. and Mrs. W. J. Cleary, Mr. and Mrs. Frank Shepherd, Mr. and Mrs. Herman Levy, Miss Katherine Gundelfinger, was hostess for another informal little dinner for Miss Anna Cummings, guests and their escorts, covers being laid for Miss Ostrander, Miss Farmer, Miss Anna Cummings, Misses Herman Levy, Tullius Tupper, Elmo Olson, James Gearhart and the hostess.

Mrs. S. L. Wiley entertained the Daughters of the Revolution yesterday at a charming little Colonial tea given at her home on North J street. This congenial little group of patriotic women is growing in size and enthusiasm, and each afternoon sees a deepening interest in the cause for which

The Friday Afternoon Card Club met yesterday with Mrs. Emery Domine, Mrs. J. Sherman Show of Syracuse winning the dunay cup and sash awarded for high score.

The Friday Study Club met yesterday with Miss Charles Jenney. The members continued the reading of Handel with Mrs. Miller. Miss Ursula Chartrand was admitted to the club's membership. The next session will be held with Mrs. Alice Howe, of 345 Valencia street.

The Ladies Aid Society of the First Presbyterian church met yesterday in the parlors of the church. At the close of the business session the Golden Hour Circle took charge of the social hour and provided a delightful program and refreshments. Master Philip Dick contributed an excellent piano number. Misses Lila Wahlberg and Corinne Keefer added a vocal duet which was immensely enjoyed and Miss Hazel Hall closed the program with a charming vocal solo. Some very dainty refreshments were served at the close of the program and the ladies remained for a pleasant chat. The society has made plans to give a Thanksgiving dinner on November 24th, the Tuesday before Thanksgiving, in the church parlors.

they are banded together. Mrs. Wiley entertained very graciously and made an especial success of the Colonial features being the traditional possessor of a number of interesting heirlooms with a Revolutionary history attached. A number of the ladies were in Colonial costume and tea was served in Colonial fashion, the decorations carrying out the pretty idea.

Miss Bonnie Cummings presented a very entertaining paper on the Revolution. This is to be made a feature of every meeting hereafter. The chapter boasts eighteen prospective members, many of whom have their eligibility already established, and others who hope to prove their claims to membership as soon as the necessary papers are returned from Washington.

The next meeting will be held the first Friday in December with Mrs. Wiley. "Why D. A. R. Was Formed" will be the subject of an interesting paper by Mrs. D. T. Wink, one of the leading spirits in the organization.

One of the objects of the order is to

create in the women who trace their ancestry back to revolutionary officers a desire to perpetuate the memory of these officers and refresh themselves in the history of that period by a study of United States history.

Misses Georgia Clark, Jenette Wilson and Ethel Pierce left yesterday morning for Stanford University to visit Misses Eva Clark and Ethel Shaver. They will stay over for the big football game next Saturday and will also visit in Berkeley for a few days.

Mr. and Mrs. Charles Musick entered last night at a delightful little

dinner their guests including the members of the Alaskan party with whom they enjoyed a jolly trip last summer. The dinner table was ex-

ceedingly dainty in its decorations of pink roses and ferns. Thely salt cases

bearing an Alaskan stamp were novel

little favors and bore the names of the

following guests: Mr. and Mrs. A. V. Lisenby, Miss Clara Trobridge, Miss Margaret Wear, Miss Ida Bacon, Miss Mamie Russell, Mrs. J. M. Collier, Carl Lisenby, etc.

The Friday Afternoon Card Club met yesterday with Mrs. Emery Domine, Mrs. J. Sherman Show of Syracuse winning the dunay cup and sash awarded for high score.

The Friday Study Club met yesterday with Miss Charles Jenney. The members continued the reading of Handel with Mrs. Miller. Miss Ursula Chartrand was admitted to the club's membership. The next session will be held with Mrs. Alice Howe, of 345 Valencia street.

The Ladies Aid Society of the First

Presbyterian church met yesterday in the parlors of the church. At the close

of the business session the Golden

Hour Circle took charge of the social

hour and provided a delightful pro-

gram and refreshments. Master Phil-

ip Dick contributed an excellent piano

number. Misses Lila Wahlberg and

Corinne Keefer added a vocal duet

which was immensely enjoyed and

Miss Hazel Hall closed the program

with a charming vocal solo. Some

very dainty refreshments were served

at the close of the program and the

ladies remained for a pleasant chat.

The society has made plans to give a

Thanksgiving dinner on November 24th,

the Tuesday before Thanksgiving, in

the church parlors.

HANFORD MAN TO PAY

WHEELBARROW BET

Armona Growers Will Pack Their Own Raisins.

Hanford Football Team Is to Play Visalia Today on Home Grounds.

HANFORD, Nov. 6.—As the result of an election bet, on Monday afternoon at 2 o'clock, A. C. Miller of this city, an erstwhile backer of William Jennings Bryan, will furnish the motor power for a wheel barrow, in which Frank O'Brien will be proudly perched. The procession will start from a local saloon and the line of march will be through the business district.

The Hanford Union high school football team is in readiness to meet Visalia on the gridiron in this city tomorrow. Following is the line-up: Hanford: George Murray, center; Ray Hayes, right guard; Sidney Sharp, left guard; Sidney Leggett, right tackle; Vernon Bowmen, left tackle; Henry Starr, right end; George Prichard, left end; Russell Tuck, quarter back; Frank Buckner, full back; Leroy Newell, right half back; Frank Epler, left half back; Orville Cox, Thorpe; Hinckley; Kreyenhagen; Gadsden and Boyd, substitutes. Frank Epler, a new assistant at the school from the East and an old football player, was elected captain by the above named players.

A regular monthly meeting and social of the Irwin Street M. E. church was held in the church parlors this evening.

The old Downing packing house in Armona has been tentatively purchased by a party of local raisin growers, who will at once proceed to pack their crop of 1908. While the deal has not yet been absolutely completed, there is every reason to believe that it will be within the next twenty-four hours. This move will eliminate the packers from the field and if the grower does not now obtain a fair price for his goods he will have to place the blame elsewhere.

At last evening's session of the board of trustees of the Hanford Carnegie Library, it was decided that the condition of the library fund was such that it would not warrant the employing of an assistant librarian.

PACKING OPERATIVES SURPRISE FOREMAN

At the close of work yesterday afternoon at the Pioneer Fruit company's packing house at the Los Palmas vineyard, the young men and young women who have been working together all summer took this opportunity of surprising their foreman, Mr. Weyant, and a woman, Mrs. Hamilton, in a very pleasant manner. They gathered at the noon hour and presented Mrs. Hamilton with a handsome cut glass dish and Mr. Weyant with a comfortable Morris chair befitting the good will and friendship felt for them. It was a very pleasant occasion and made a happy close for this season of strenuous work.

Cabinet Meeting Held.

WASHINGTON, Nov. 6.—Today's cabinet meeting, the first held since October 27th, was devoted principally to a discussion of the results of the election. Attorney General Bonaparte, Postmaster General Mayer and Secretary Wilson were absent.

VISILIANS ALSO MAKE FREAK ELECTION BETS

Robert Brown Will Wheel Wm. Reed.

Either Spray or Defoliate Trees in Order to Fight the Scale.

VISALIA, Nov. 6.—Sunday afternoon Robert Brown will pay an election bet made with William Reed by wheeling the latter the length of Main street and return in a wheelbarrow with a plow on his back bearing the inscription "I voted for Bryan." It is possible the band will be out to lead the procession. Brown has also to wear for a period of six weeks the loudest pattern of socks in town selected by Reed.

J. D. Pritchard of the Times is growing a crop of cockleburs on his upper lip as a reminder of a wager with Dr. F. G. Kehlerberg over the national election. Democrat, he will pay thirty cents for slaves for the next half year. Had Bryan won he would have had his beard removed free for an equal length of time.

Horticultural Commissioner P. D. Fowler, who had charge of the fumigation of the orange trees in this city recently, was here today from Tulare looking into the matter of topping of such trees having scale which were not fumigated. Owners were given the option of having them treated to a dose of cyanide or defoliating them. A few chose the latter. All the leaves, fruit and small twigs must be removed and destroyed. If owners fail to do this the trees will be fumigated and, now that the main work has been accomplished, the cost will be high. It is believed with the exception of a few trees to be treated exterminated.

Orange picking in the citrus belt is going forward at a satisfactory rate.

The ergo will not be as large as last season.

The board of supervisors will convene Monday the official canvass of the votes cast in the recent election.

The "dry" ordinance passed by the supervisors, which puts out of business the saloons in such premises as may be used against them at the recent election, will become operative on the first of the year. Such saloons as are affected are given the privilege of application until that time even if a special license has to be granted for the part of a quarter.

Mr. and Mrs. John W. Scott are here from Los Angeles and are the guests of the former's mother, Mrs. S. J. Gilbert. Mr. and Mrs. Scott were recently wedded in the southern city.

Mr. Harris of Coatings left this morning for San Francisco after a visit with relatives and friends in this city.

Mrs. N. W. Kilbier has returned from a visit of several weeks in San Francisco with Mrs. C. A. Wilber and Mrs. Vie Baker.

Mrs. T. O. McSwain has returned from a visit with relatives in England.

Mrs. Rebecca Patterson of Berkeley is here on a visit with her son, Dr. T. J. Patterson and Dr. A. D. Patterson.

UTAH MINING MEN SEEK HEADQUARTERS OF THE CONGRESS

SALT LAKE CITY, Nov. 6.—A meeting of the recently organized Utah branch of the American Mining Congress was held here last night and plans were laid for active exploitation of Utah's mineral resources before the coming meeting of the American Mining Congress at Pittsburgh. A large delegation from this state will attend the national meeting, which is scheduled for early in December.

The possibility of the national body removing its official headquarters from Denver was discussed, and in case this is done, the Utah mining men will be prepared to make a definite offer of a site and substantial subscription toward the erection of a mining temple.

Capt. Duncan McVichte, Salt Lake City, was elected president. The Utah branch has the largest membership of any in the West.

Kills Girl Then Suicides.

HAMILTON, Ont., Nov. 6.—After the resumption of the double shooting affray at the residence of Mrs. B. Canale, 180 Rebecca street, last night, Chester Johnson is dead and Rosie Culmett is in the hospital with five bullet wounds in her body and may not live. Johnson did the shooting. He had been keeping company with the young woman against the wishes of her parents.

"If we cannot live for each other, we can die for each other." Perhaps people will now be sorry they parted us.

The young girl died from loss of blood. Mrs. Dulmen and her husband ridicule the theory that there was any pact between Johnson and the girl to tie them together.

M. SAIER JEWELER 1917 Mariposa Street

Beauty in Jewelry

is not the only requisite. Reliability is equally important. That is why this is a safe place to buy that locket, necklace, brooch, bracelet, or ring. For you can depend on the jewelry you buy here. We warrant the exact quality of what we sell. You can judge of the beauty for yourself. The quality is assured by

NEWS OF THE WORLD OF SPORTS

"HUSK" CHANCE ARRIVES IN SAN FRANCISCO FROM EAST

Peerless Leader Will Visit Fresno In a Week — Confirms Report That He and Murphy Are At Outs.

Frank Lerry Chance, manager-captain-first baseman of the two times world's champion Chicago Cubs, and the man who has accomplished more toward putting Fresno on the baseball map than any one, is on the Pacific coast, in company with his wife, formerly Miss Pancake of this city.

The peerless leader of baseball players, recognized as the greatest all-round boxer in the world today, arrived in San Francisco, direct from Chicago, Thursday night. He will remain in the metropolis for about a week before coming to Fresno. Upon his arrival here a tremendous demonstration will be accorded the pride of the local fans.

The famous Weinerwurst band headed by "Gokin" Barton, will meet Chance at the train and to the accompaniment of red fire and the strains of the martial airs played by the band, "Husky," as he is best known in his native town is to be escorted up town in an automobile, after a parade through the streets from the depot. The band boys will also render him a banquet during his stay in our midst. Chance states that he will winter in Los Angeles, where his mother and brothers reside. One brother, Alonso, lives here.

It is likely that Chance will have some interesting stories to relate to his old Fresno friends, who bet heavily on the Cuban chances against Pittsburgh and New York in the National League race and against the Detroit Tigers in the world's series.

The following from the Chronicle of yesterday will be of interest to the bugs in general:

Look At My Window

Any man who uses drawing instruments and wants the results of using them to be exact and accurate, would better have the Cearley quality. I am the head-quarters for architects, draughtsmen and engineers' supplies, drawing instruments, pencils, T squares, colors, brushes, etc.

SHE'S COMING BACK**IT'S DO OR DIE WITH SAN JOSE!**

Prune Pickers Arrived from Home Last Night.

Are in Best Condition of Season for Crucial Games With Raisin Eaters.

TODAY'S GAMES.

San Jose at Recreation Park, Fresno, 2:30 p.m.
Alameda at Stockton.
Santa Cruz at Sacramento.
Oakland vs. San Francisco at Alameda.

STANDING OF THE CLUBS.

	Won.	Lost.	Pct.
San Jose	56	16	.778
Stockton	58	17	.773
Sacramento	53	19	.736
FRESNO	44	30	.595
Santa Cruz	59	45	.553
Alameda	24	48	.333
San Francisco	10	65	.133
Oakland	4	73	.051

JIM DEWEY IS FINDING BALL REGULARLY OF LATE

The fast left fielder of the Raisin Eaters is improving in his work with the stick. In the series at San Jose last week, the big fellow smashed out four hits out of eight trips to the plate. Hitting the ball at a .500 clip in two games is far from being bad. Stockton released Dewey because of his hitting. Jim is a favorite with local fans and if he recovers his batting eye, his conscientious work in the outer garden and his speed on the sacks will make him a permanent fixture on next season's club.

FOOTBALL STARS SIGN WITH HIGHLANDERS

Arthur Irwin, the scout of the New York American league team, has signed Harry Reilly, the famous Yale shortstop for the Yankees. Reilly coached the Yale team last year, being barred because of having played summer ball.

Should Reilly make good, and there is little doubt that he will with a little experience, it will probably mean the passing of Kid Elberfeld. It's hardly possible that Elberfeld will be of much use to the Yankees after his regime as manager, especially with a man so fiery as Stellings as his boss.

The addition of Reilly to the Yankee roster swells the number of collegians under contract to Frank Farrell, Walter Chair, the promising catcher, is a Bucknell graduate. Clee and McEvane are both Pennsylvania state men and have their degrees to show it. Gardner also went to a Southern university. There should be enough gravitas on the team next year, if collegians really possess any.

McEvane and Clee are both football stars, but their contract with New York prevents them from playing. McEvane, however, is coach at Pennsylvania State.

FRANK ARELLANES
Who may twirl one of the games for San Jose against Fresno?

Accompanied by a score of local fans from the prime belt, Alvin Steffan and his Prune Pickers arrived on the Owl festivus from San Jose, confident of victory over "Spider" Bonin's Raisin Eaters this afternoon and tomorrow at Recreation Park, when the clubs try conclusions on the diamond for the first time this season. Captain Elmer Stricklett expressed himself as being positive of landing the flag down his way this year, although he realized that he has a tough proposition to go up against.

The two games against Fresno mean life or death to the prune juice boys. Some one must shoot the clouts and every member of Jarman's bunch says in unison, "It won't be us." Therefore it must be the locals.

On the other hand, Manager-Pitiful Baum says that his Sedless Raisin crew is in top condition to put up the game of its career and if they drop half contests to the visitors it will be because the Prune Pickers don't know the brand of ball.

On the eve of the opening game at the Recreation Park ball yard at 2:30 this afternoon, Baum reported each man confident of victory, even though one defeat for San Jose meant the loss of the pennant to Stockton, the bitter rival of Sacramento, San Jose and Fresno.

Elmer Stricklett, of spit-ball fame, will probably take his regular turn on the mound today, with Ruth opposing him in the mid-field. Tomorrow Harry Winter will work against "Lil Arthur" Wagner.

To the (continued) twelve-inning game at San Jose last Sunday, Sunday, the third baseman must be secured to take Coughlin's place, and there may be a new man at first base.

Truly, the life in baseball is short at best.

A force of workmen has been putting the local grounds in perfect shape, and when the clubs trot out for practice this afternoon, the fans will see the diamond in the best condition in years. Prospects are for two record breaking crowds.

Frank Arellanes, who was with San Jose earlier in the season, but who went to Boston to finish the year in the box for the Red Sox, came over with the visiting team from San Jose last night, but it is not thought he will play, but it is not thought he will play, owing to the danger of being second in this event.

HANS WAGNER GOES HUNTING: FINDS OIL

Hans Wagner, the "Flying Dutchman," champion batsman in baseball, has had another streak of "Dutch luck," as he terms it. He has struck oil! Hans, the "Pirate star," went hunting the other day and captured an oil well.

AMERICANS WIN IN FRESHMEN'S SPORTS

OXFORD, England, Nov. 6.—American Rhodes sethens won three events and two medals in the British Freshmen games today. R. E. Blake of Tennessee won the long jump with 19 feet, 1 inch, and C. S. Simondson of Arizona was second with 18 feet, 2½ inches. R. E. Putnam of Kansas won the hammer throw with 143 feet, 5 inches, breaking all freshman records. R. E. Blake was second in this event.

RACES AT EMERYVILLE TRACK TO OPEN TODAY

Cream of Country's Riding Talent To Appear This Season; Small Fields Will Be Rule of Club.

SAN FRANCISCO, Nov. 6.—Small

fields, but of infinitely superior class than at any previous meeting in its history will be the rule of the New California Jockey club, which opens its winter season at the Emeryville track, tomorrow. The unique features in connection with racing on the Metropolitan tracks and the probable curtailment of the New Orleans meeting, together with the liberal added money increases in the numerous stake events to be decided here during the season, have been the means of stimulating the local racing situation to an extent beyond the expectations of the track officials.

Many new comers have elected to winter their strings on the coast, bringing with them the cream of the riding talent in the country. An index of the caliber of the horses that will sport sills here is shown by the nominations in the various stakes, in which appear the names of such equine stars as Jack Atkin, King James, Roschen, Pendleton, Dorando, Chapultepec, Angelus, Montgomery, Fitzherbert, Trance, Preston, Fred Gill, Peter Quinn, Billie Chief, Modoc, Uncle Royal, Tourist and others which have stake winnings to their credit. To plot these nearly equally matched, among them being a certain Walter Miller, Nortier, S. C., Shilling, V. Powers, McCarthy, Lapon, Gilbert and others.

Sam Hildreth lends all owners with 175 nominations to his credit. The stable of E. A. Forsythe, P. T. Chin, President Thomas H. Williams, Barney Schreiber, "Lucy" Baldwin, Adolph Spreckels, Charles Lindblom and others follow closely with representative entries.

The Burns handicap, the richest event of the Western turf, will this year be worth between \$15,000 and \$20,000; the California derby, the blue ribbon classic, will approximate \$10,000, as will also the famous Thornton four-mile steeple, while the California Oaks and other mixed events have been substantially bettered in the way of added money.

CAN CUBS REPEAT THEIR GREAT WORK?

Clubs Often Need Infusion of New Blood.

Frank Chance Is Scouting for New Material, Realizing Old Players Grow Stale.

One of the most serious problems a baseball manager is to know just when the time has arrived to make a big change in his team. Successful combinations move along so smoothly and the memories of the deeds of the players remain so green that it is hard to recognize the signs as to just when a star is going back.

Every manager hates to cut loose a one-time star, but it is becoming more the fashion to look out for the fading signs.

The Boston Americans, which won the championship of 1903 and 1904 were kept together too long. Outiders could see that the players were going back, but the Boston management couldn't. The result was that when it was decided to make radical changes the team has retrograded so much that it has not yet caught up with the head of the procession. The same was true with the New York Giants which won the pennants of 1904 and 1905. Manager McGraw was able to keep up a front by going out and purchasing National League players and by his big deal with the Beaneaters last winter, but such changes are at best only temporary.

What each club desires is to get together a team which will not need much changing for three or four seasons, and then to gradually breaking in new, no, amateur, championship strength for a number of seasons.

Manager Mack of the Athletics did this from 1902 to 1907, inclusive. Then the break. Connie discovered that his men were going back all at the same time. In consequence, he has made some radical changes within the last year, and the players who came close to winning the pennant in 1907 have now been widely scattered. For instance, Catcher Schreiber has gone to Chicago, Shortstop Monte Gross was let go to Kansas City, Jimmy Collins counted out of it for next season, Waddell was sold to St. Louis. Seybold has probably played his last game with the Athletics, and Murphy has been shifted from second base to the outfield.

With three pennants won in successive seasons, the Chicago Cubs look good for an indefinite period, and yet Manager Chance is confronted with the problem of whether or not he should make one or more changes in his team next season.

He gave some inkling of his plans this fall, when he played 10-man in center field in place of Slagle.

The weak link of the combination appears to be Stricklett at third base. The latter did not hit at his former rate last season, and it is reported that Zimmerman may be trained to take "Slag's" place. Sheppard, in left field, too, may soon have to be supplemented.

The Boston team also will undergo some changes. Bush will undoubtedly sign off heavy at shortstop, a new third baseman must be secured to take Coughlin's place, and there may be a new man at first base.

Truly, the life in baseball is short at best.

The Princeton team will undergo some changes. Bush will undoubtedly sign off heavy at shortstop, a new third baseman must be secured to take Coughlin's place, and there may be a new man at first base.

Truly, the life in baseball is short at best.

The Princeton team will undergo some changes. Bush will undoubtedly sign off heavy at shortstop, a new third baseman must be secured to take Coughlin's place, and there may be a new man at first base.

Truly, the life in baseball is short at best.

The Princeton team will undergo some changes. Bush will undoubtedly sign off heavy at shortstop, a new third baseman must be secured to take Coughlin's place, and there may be a new man at first base.

Truly, the life in baseball is short at best.

The Princeton team will undergo some changes. Bush will undoubtedly sign off heavy at shortstop, a new third baseman must be secured to take Coughlin's place, and there may be a new man at first base.

THREE CARS RACE FROM LOS ANGELES TO PHOENIX

LOS ANGELES, Nov. 6.—Three cars, an Elmore-Lister Jano and a White Steamer, will leave Los Angeles tomorrow midday for a race against time to Phoenix, Arizona, for a cup to be given by the Arizona Republican to the car finishing first, and a cup given by the Firemen's Fund Insurance company to the second car.

Never before in the history of Southern California has a race over such territory roads been run. The road to Phoenix is, for much of the distance, through sand that makes speed an impossibility.

After crossing the Colorado river the running is better, but still hard. Time will be taken out while the cars are crossing the river and all arrangements have been made for timekeepers and checkers at different cities through which the cars will pass.

The three cars have been carefully prepared for the race. A change of drivers on probably all three cars will be made at Banning, Cal.

The cars will arrive in Phoenix during the Territorial Fair, and their condition permitting, will be entered in the races to be run on the Phoenix track.

Joe Forrest, arrested on a warrant issued by Judge Graham for shooting a cow belonging to E. Stevens, was arraigned before the same court yesterday morning. He entered a plea of not guilty and was released on small cash bail. His trial was set for November 17 at 10 o'clock.

AMARO MALIN, the Mexican who figured in a recent cutting scrape among a few of his countrymen at Laton, and was arrested for assault with a deadly weapon, was taken to Laton yesterday and given his preliminary examination on the charge. Judge Smith held him to answer and fixed his bail at \$100, in default of which he was returned to his cell in the county jail.

FARMER ARRESTED FOR SHOOTING A COW

Joe Forrest, arrested on a warrant issued by Judge Graham for shooting a cow belonging to E. Stevens, was arraigned before the same court yesterday morning. He entered a plea of not guilty and was released on small cash bail. His trial was set for November 17 at 10 o'clock.

APPEAL IS TAKEN IN HORSE RACING CASE

NEW YORK, Nov. 6.—To determine the new law on race track gambling an appeal is to be filed by the New York State Board of Regents. The board, which has been employing the services of McVille Collins, arrested at Gravesend race course June 16th last, in the appellate division of the Supreme Court today, Justice Bishoff rendered a famous decision on this case, when he discharged the prisoner on a writ of habeas corpus, saying no crime had been committed. Detective testified that they saw Collins pay a \$5 wager that he had lost on a horse.

It is the intention of Elder to find out whether the higher courts will hold that the law applies to individuals as before or only to pencil bookmakers and gamblers. Decision in the case was reserved.

THEODORE FREDERICKS, the man

accused of shooting a horse in the Bronx, N. Y., was arraigned yesterday before Justice Bishoff, who was staying over night with the family, perished in the flames. Mr. Frederick is so badly injured that he cannot recover. The fire was caused by a boy lighting the kitchen stove with carbolic acid.

THOUSANDS OF MEN PUT BACK TO WORK

NEW YORK, Nov. 6.—The H. R. Worthington company announces to day that its full complement of more than 5000 men will be put to work at the construction of the new building of the New York Stock Exchange, which is to be completed in December.

The building company makes a statement concerning the effect upon

the market value of the building.

They have been running on part time and have many big orders contingent upon the election result.

RETURNS MONEY GIVEN FOR CAMPAIGN USE

COLUMBIA, Ind., Nov. 6.—At the beginning of the campaign Thomas R. Marshall, governor-elect of Indiana, said that he would accept no contributions in financing his political contest.

In spite of this, letters containing money were frequently received, the total amount being about \$30,000.

Marshall has accepted none of this

money and he is now engaged in returning the contributions.

SOUTH AMERICA PLEASED WITH TAFT'S ELECTION

VALPARAISO, Nov. 6.—The local press has expressed its satisfaction over the election of William H. Taft to the presidency of the United States and says that the continuation of President Roosevelt's policy will bring with it peace and prosperity.

CONSTITUCIONAL, Ecuador, Nov. 6.—The local newspapers today publish pictures and sketches of the life of William H. Taft and express gratification over his election.
